

PRECEPTS
TRUSTEE

BUILD YOUR LEGACY WITH A TRUST

• PERSONAL • PERCEPTIVE • PREPARED

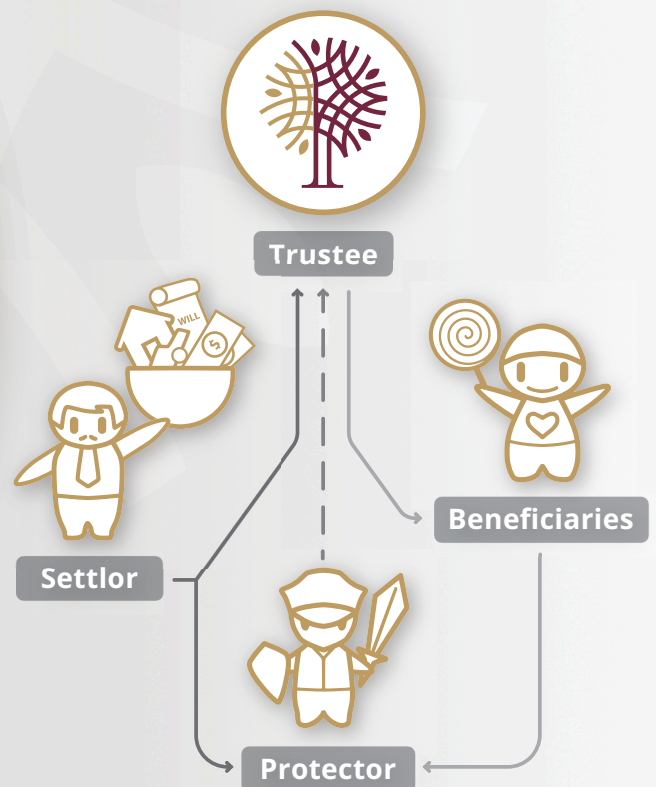

A Trust is a powerful Estate Planning instrument. Focusing on your objectives, you can choose to have complete control over your assets through a carefully structured Trust even when you have long passed on. Once it is set in place, you can be assured that all your plans to protect your assets and the future of your loved ones will be fulfilled – the way you designed it to be, by an experienced, professional licensed Trust Company.

WHAT IS A TRUST?

A Trust fund is like a bowl of candy. Before leaving home for a long work trip, you hand this bowl over to your spouse together with a set of instructions on how you want your candy to be enjoyed by your children. If you are concerned that your children are not disciplined enough to ration the candy on their own (or even worse, they may fight over it), your instructions to your spouse could include giving them one candy each after their mealtime for the entire week with the condition of finishing up the meal.

Similarly, the archetypal Trust is a legal arrangement by which you, the owner ("Settlor") of the assets, create the Trust and appoint another party whom you trust ("Trustee") to manage and distribute your assets according to your instructions ("Trust Deed") for the benefit of your loved ones ("Beneficiaries").

You can appoint a Protector as an intermediary to keep a lookout for beneficiaries' needs as well as checks on the Trustee.

WHY A TRUST?

Protect Assets and Vulnerable Beneficiaries from Undue Influence & Predatory Persons

Maintain Privacy of Your Family's Wealth

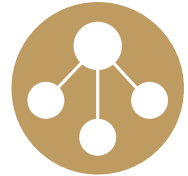

Reduce Conflicts between Beneficiaries

Use as a Family Reserve

Creditor Protection

Prevent Squandering of Wealth

Keeping Hard-Earned Monies within the Family

Achieve Family Goals and Promote Family Values

Plan for Business Succession or Exit Arrangement

THE ADVANTAGES OF APPOINTING PRECEPTS TRUSTEE:

More Than \$2.2 Billion Assets Under Trust
